

AMONG THE EXCHANGES OF THE INLAND EMPIRE

New Electric Road.
Jay P. Graves has incorporated the Spokane & Interurban system, to build an electric line from Spokane across Moran prairie, through the Palouse country to Moscow, Idaho, and eventually to the Snake river. The articles of incorporation were filed with the county auditor yesterday and the capital of the company is placed at \$3,500,000.

The incorporators are Alfred Coolidge, president of the Traders' National Bank of Spokane, and of the Colfax National Bank of Colfax; John Twoby, a member of the firm of Twoby Bros., large railroad contractors and heavy stockholders in the Old National Bank; F. Lewis Clark, capitalist, and one of the largest property owners in Spokane; F. A. Blackwell, president of the Coeur d'Alene & Spokane Railway Co., and western representative of the William Howard Lumber Company, one of the large lumber companies of the United States; and Jay P. Graves, president of the Spokane Traction Co., and an extensive stockholder and managing director of the Granby mines and smelter.—Spokesman-Review.

Stock News to the Northward.
The shipments of stock continue from the Clearwater country. The reports that no stock is being fed has been denied by stockmen on Camas prairie and the Salmon river and it is reported that large numbers of cattle are being fattened in the upper country and will be put on the market late in the winter. It is also reported that large numbers of stock of all kinds are being fed in the Yakima country and coast packers will make large purchases in that territory within the next three months.

Stockmen generally expect to see livestock of all kinds advance within the next two months, but no greater advance than is generally the case at this season of the year. While there are few sheep ready for the market it is probable that the usual shipments will be made from the country before the bands are driven from the winter quarters. One carload of sheep will be shipped from Stites this morning and a shipment of cattle will be made from Genesee tomorrow.

Reports from the Palouse country indicate that large numbers of hogs are being fattened in that section and buyers predict the output from the inland empire as a whole will be little below last year.—Lexington Tribune.

Wires Crossed by Owl.
The electric lights were not in use last night after 9 o'clock, the circuit being broken by a large owl alighting on the wires about two miles out of town. Manager Van Buren started for the power plant this morning to

The Glowworm's Light.
The luminous organ of the glowworm is a rounded area on the abdomen, under which is a fatty substance that gives out a phosphorescent light as the result of slow chemical change. We may regard this as a "love light," which attracts the active winged males during the hours of darkness, for glowworms are of nocturnal habits. The eyes of the male are unusually large and well developed, no doubt in order to help him in the search for his shining but more sluggish mate. In some other species, such as the fireflies of south Europe, it is the males which give out light, and the reason for this is not clear. Possibly it promotes rivalry in courtship, and it has also been suggested that it may serve as a means of amusement.

Reading the Bible.
It was the meeting of the Christian Endeavor society. Near the close the leader suggested that each one should tell what part of the Bible he read the most and give the reason.

The last one to speak was a lad who said, with a little hesitation, that he read the first chapters of Genesis more than any others.

A look of surprise and curiosity was manifest in all the listeners as he went on to give his reason.

"You see I always resolve every new year that I will begin and read the Bible through, but I never get very far, and of course I always have to make a new beginning."

Stony Cities.
In Jaffa and Jerusalem, as in Malta, everything is of stone. Even the very cisterns or tanks on the house-tops are of stone. But in those stony cities the stone does not stop with the street level. The dwellers descend and burrow into the earth beneath. In many of the Jerusalem and Bethlehem buildings there are basements, sub-basements, crypts, sub-crypts and dungeons. One may descend several stories into the bowels of the earth amid the dampness and slime, where ooze trickles on the stone steps.—Argonaut.

Had Her Own Impressions.
"Your husband says he established his hotel by honest toll," remarked the woman who hears all that is said in the village.

"Yes," answered the tired looking woman, "but he didn't say whose toll, did he?"—Washington Star.

No Fear.
Borroughs—I'm afraid I've got heart trouble. Lenders—Oh, you needn't be afraid that you'll ever die suddenly. Borroughs—Think not? Lenders—No, you'll pay the debt of nature slowly, just as you pay all your other debts.—Philadelphia Ledger.

Christian church fair in the Bowman building, December 15, 16 and 17. Excellent program each evening.

ascertain the cause of the lights being not in use last night and when about two miles from town noticed the wires crossed. Upon examination he discovered a large timber owl lying dead beneath the wires. The bird measured five feet from tip to tip and had probably alighted on the wires last night and received the full voltage of 5000 volts.—Grangeville News.

Change in Pastorate.
Father James O'Neil, who for the past few months has had charge of the Catholic parish in this city, left today for California, having received word from the bishop that Father Desmarais will return Thursday. The church dislikes very much to part with Father O'Neil, whose pastorate here has been most satisfactory and, by the way of showing their appreciation, some of the ladies of the parish visited him this morning and presented him with a purse containing \$100.—The Dalles Chronicle.

Top Notch in Idaho Penitentiary.
There are at present 167 prisoners confined in the state penitentiary, the highest number in the history of the institution. Three more will be brought in from Lewiston in a few days. When Connors has been disposed of there will then be 165 in the penitentiary. Of this number three are women and 15 are in for life.

The high water mark was reached before when John Halley was warden when there were 165 prisoners.—Boise Capital News.

Crushed Under Lumber.
Frank Fuller, a well known employee of the Oregon Lumber Co., met with a serious accident about 5 o'clock this morning that will result in his being laid up for some time to come. The facts in regard to the accident are that while working around a pile of lumber it toppled over on him pinning him to the ground and breaking his leg between the ankle and the knee.—Baker City Herald.

Church Out of Debt.
With the last payment of \$274, made possible by the fair held two weeks ago by the ladies of the Catholic Church Debt Society, these energetic women have lifted a \$2000 mortgage, which since the erection of the splendid church in the city has hung over them.—The Dalles Chronicle.

\$2800 in Eleven Days.
Twenty-eight hundred dollars in yellow gold, resulting from an 11-day run of a Merrill mill—that is the remarkable record of the Black Butte mine, in Fox valley in the John Day district.—Sumpter Miner.

TRAINING SCHOOL FOR HORSES

Wanted—One hundred head of unbroken horses. I am located for the winter at the Dutch Henry feed yard, corner of Alta and Lillith streets, where I conduct a first-class training and sale stable. If you want to buy a horse I will take your order and select the best horse for you, or if you have a horse to sell I am well acquainted with the best buyers. I am well equipped to break and handle any horse from the finest blooded stock to the wildest and most desperate broncho. There is no horse but can be broken and be made to drive or work nicely if he be handled correctly. I have broke one hundred and twenty-three head in Pendleton, some of which had become desperadoes. I guarantee satisfaction in every case.
